Dear Dr. Yetley:

Notice is hereby given pursuant to the requirements of Section 403(r)(6)(21 U.S.C. 343(r)(6) of the Federal Food, Drug and Cosmetic Act of statements of nutritional support which have been made on the label and/or in the labeling in connection with the marketing of the dietary supplement DAILY HERBS LEG VEIN & CIRCULATION. DAILY HERBS LEG VEIN & CIRCULATION was first marketed with these statements of nutritional support on Monday, April 5, 1999. The statements of nutritional support are as follows:

"Enhances circulation and leg vein appearance"

"Improve the health and appearance of your body's leg veins with a complete formula that combines clinically tested ingredients such as **Horse Chestnut Seed** and **Butcher's Broom** for their combined properties in helping to support strong vein walls and proper leg circulation. **Green Tea Extract** and **Vitamin C**, both strong antioxidants, have been added to this powerful formula for their ability to protect cells from free radical damage. These combined ingredients help to nutritionally promote overall proper leg vein circulation and maintenance of the vascular system's integrity. Include Leg Vein and Circulation in your daily nutrition for a healthier you."

Very truly yours,

MASON VITAMINS, INC.
